

## COMENIUS..... what else?

25 of January 2014. It's time for the 6 Italian boys and girls from Cesaris to take the plane which will bring them to France to join a wonderful experience with some French and German students. The group arrive in the afternoon in Toulouse, but the final destination is the city of Albi, where every student will meet his/her own host. The first evening is free, but on Sunday morning the students are ready to visit the medieval town of Carcassonne. For lunch, they have the chance to taste a typical French dish, the Cassoulet. After a brief trip, the group arrive in Toulouse, to visit the main buildings of the city. The morning of the 3<sup>rd</sup> day is dedicated to a little homemade show where the French girls represent the main European stereotypes, then it's time for having lunch all together. In the afternoon, after a visit to the Town Hall, the students have to challenge each other making photos in the city and trying to create optical illusions. These photos will be shown in the morning of the 4<sup>th</sup> day, then printed on some white t-shirts. In the afternoon, the girls enjoy themselves going shopping in the main streets, and everybody buy sweets and presents for their parents and relatives. The evening is sooooo sad!!!!!!! After a bowling match, we say goodbye to each other. Sigh. Sob.

The last morning is even sadder. Between the tears, the last kisses and hugs. Then, the train to Toulouse.

In our hearts, the joy of having lived such a beautiful experience; in our mind, the wonderful memories of the amazing people we've met in that wonderful place.

**Wonderful** is the only word we have to describe our experience! .
